

Figure 1 is a schematic representation of the experimental design. It shows a sequence of steps: 1. Pretest (N=100) leading to 2. Main Experiment (N=100). The Main Experiment is split into 2.1 (N=50) and 2.2 (N=50). 2.1 leads to 3. Posttest (N=50) and 4. Follow-up (N=50). 2.2 leads to 5. Posttest (N=50) and 6. Follow-up (N=50). The main experiment is divided into two groups: 2.1a (N=25) and 2.1b (N=25). 2.1a leads to 3.1a (N=25) and 4.1a (N=25). 2.1b leads to 3.1b (N=25) and 4.1b (N=25). 2.2a (N=25) leads to 5.1a (N=25) and 6.1a (N=25). 2.2b (N=25) leads to 5.1b (N=25) and 6.1b (N=25). The diagram also shows a flow from 2.1 to 2.2 and from 2.2 to 2.1.
